

Potential Plus UK Strategic Objectives 2023-2026 (updated 6/6/2023)

1. **Empower young people** with high learning potential to develop the self-understanding, well-being and skills necessary to lead change.

We will empower young people to fulfil their potential and to lead change for themselves and the wider community.

How?

2. **Empower parents** to advocate effectively for improved support, provision, and well-being for young people with high learning potential.

We will equip the parents of our young people with the knowledge, skills and tools needed to improve the opportunities, achievement and well-being of their children.

How?

3. **Community** – Create and encourage mutual support within our community of families.

We will foster safe, supportive communities where families can share their successes, experiences and challenges throughout the journey to adulthood.

How?

4. **Advocate** for the needs and rights of young people with high learning potential, and for improvements to policy and practice in education and society.

In collaboration with other user-led organisations that are aligned with our vision, we will drive change in education and society.

How?

Underpinning priority

Sustain: strengthen the sustainability and effectiveness of the organisation to empower Potential Plus UK to carry out its important work.

We will secure long-term sustainability through income generation and fundraising, seeking to refine effectiveness in all areas of our charity.

How?

Services and Activities 2023-2026

1. Empower Young People – with high learning potential to develop the self-understanding, well-being and skills necessary to lead change.

How: By enabling young people to explore their identity and develop a powerful voice

Activities:

- A. SkillsBuilder initiative
- B. Board representation
- C. Co-creation of services to develop confident self-advocacy

[Back](#)

2. Empower Parents – to advocate effectively for improved support, provision, and well-being for young people with high learning potential.

How: By helping parents to fully understand and meet the needs of high potential learners, including at home, in education and in their community.
